SUMMARY

I am an aspiring software development engineer specializing in MERN stack development. With a strong foundation in data structures and algorithms, I am dedicated to building efficient and scalable web applications. I am continually improving my skills through hands-on projects and coding challenges. My goal is to contribute to innovative tech solutions and grow within a dynamic development team.

SKILLS

Technical Skills

- Tech Stacks: MERN (MongoDB, Express.js, React, Node.js)
- Languages: JavaScript, Java, HTML, CSS
- Frameworks & Libraries: React, Express.js
- Database: MongoDB
- Tools & Technologies: Git, GitHub, Insomnia

Soft Skills

- Teamwork & Collaboration: Effective team player with experience in collaborative projects.
- Communication: Strong communication skills, both verbal and written.
- Problem-Solving: Excellent problem-solving and troubleshooting abilities.
- Adaptability: Quick learner, adaptable to new tools and environments.

PROJECTS

Estate App

Apr 2024 - June 2024

- Technologies Used: MongoDB, Express.js, React, Node.js
- Details: Developed a comprehensive full-stack MERN application focused on real estate management. The application features secure login functionality, allowing users to view estate listings and manage their profiles. Additionally, it includes an admin interface for managing property listings, including adding, editing, and deleting estates. To ensure secure data storage and user authentication, JWT (JSON Web Tokens) are utilized within the browser.
